

Filming at LJLA

Subject to approval on security grounds, Liverpool John Lennon Airport welcomes filming on site, however, this must be agreed with the Airport Company in advance, and may be subject to a fee.

Film crews have been successfully accommodated in the past, with the Airport used on numerous occasions as a location and backdrop for popular television series, films, documentaries and media coverage.

Although we try to be flexible wherever possible, some areas naturally lend themselves as filming backdrops over others. Film crews and cast are reminded that security restrictions are still in place, which could limit filming activities undertaken "airside" beyond security control.
