

KEY

Existing assets/infrastructure

- Existing highways
- Existing terminal facilities
- Existing apron, taxiway and runway

Movement opportunities

- Opportunity for Eastern Access Transport Corridor (EATC)
- Opportunity to create a gateway arrival experience to LJLA
- Opportunity to expand the length of the runway to allow flights to long haul destinations
- Opportunity to expand apron to provide aviation-related access to employment uses on land south of the runway
- Opportunity to enhance and expand passenger parking facilities
- Opportunity to unlock land to the south of the runway via a new link road at the eastern end of the runway
- Opportunity to create an improved public transport interchange
- Opportunity to deliver an enhanced public transport corridor

Development opportunities

- Opportunity to provide enhanced and expanded passenger facilities
- Opportunity to develop on the land to the south of the runway to provide aviation-related employment uses, logistics and cargo-related development, and business and general aviation uses.
- Opportunity for mixed-use development, such as new hotel facilities

Ecological opportunities

- Opportunity to provide coastal nature reserve

Energy opportunities

- Opportunity to develop a solar farm to provide renewable energy for the airport
